

Netaji Subhash Engineering College

Department of Artificial Intelligence and Machine Learning

B. Tech AIML 2nd Year 4th Semester

2023-2024

Name of the Course: Python II

Course Code: PCC-AIML492

Week 2 - Problem Set

1. Write a program to read a CSV file with two fields (Subject and Marks) and create a dictionary taking values from two lists one for subject and another for marks.
2. Write a program to write a list of dictionaries into a CSV file.
3. Write a program to create two CSV files taking input from the user and identify common values in the CSV files.
4. Write a program to generate 100 random numbers. Take these 100 numbers within a ndarray and apply the simple logarithmic transformation. Find the minimum, maximum, mean, median, mode, and standard deviation, after transformation and before the transformation.
5. Read the following tabular data (Table 1) from an Excel file and give output to a CSV file discarding the last column.

CustomerID	CustomerName	Country	TransactionYear	Amount
1	A Das	India	2020	5000
2	A Ghosh	Canada	2021	4000
3	R Sasmal	India	2020	6000
4	O Choudhuri	Canada	2021	2000
5	B Banerjee	Germany	2019	3000
6	R Dutta	UK	2021	8000
